

# FM KANBAN RFID 2020

## New era of the logistics service - FM Kanban Rfid 2020!

Once again Ferrometal Oy has brought something totally new for taking care of the small part logistics. FM Kanban Rfid 2020 takes the efficiency to a totally new level. Adopting the new shelving system to the production is now easier than ever before!

New smart shelf can be assembled to the Kanban racks. Even several smart shelves can be put in one rack and by that way create the most efficient smart shelf.

New smart shelf is suitable for assembling on the table as well. It can be assembled on the pallet place also.

Now the Rfid - technology is integrated in the shelf. There is no need for any additional devices. Because of that, for starting to use new smart shelf or shelves only plug in is needed!

**Taking care of the production's small part logistics,  
hasn't ever been such easy and efficient!**
